Vision

Working together to improve the health of individuals, families and our community by shifting our focus from treatment to prevention and wellness.

Martinsville-Henry County Coalition for Health and Wellness complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.

These health centers are Health Center Program grantees under 24 U.S.C. 254b, and a deemed Public Health Service employee under 42 U.S.C. 233(g)-(n). These health centers receive HHS funding and have Federal Public Health Service (PHS) deemed status with respect to certain health or health-related claims, including medical malpractice claims, for itself and its covered individuals.

About Us

Medical care is offered at both health center locations for children and adults regardless of ability to pay. A sliding-fee discount scale is offered based on household income and size. We are committed to providing quality healthcare and are dedicated to serving all of your health and wellness needs.

How you can pay

Both health centers welcome privately insured patients, as well as patients with Medicare and Medicaid. All patients may also apply for a sliding-fee discount scale based on income and family size.

Insurance Assistance

An advocate for FAMIS is available to assist patients with the application process of Virginia FAMIS and FAMIS Plus.

Outreach and Enrollment specialists are onsite to assist consumers with enrollment in private insurance through the Affordable Care Act.

Medication Assistance

Our MedAssist program helps patients at both health centers access prescriptions at affordable pricing. Medication assistance through 340B, generic or patients assistance programs helps qualified patients access medications at significantly lower cost.

Behavioral Health

Behavioral Health offers assistance to patients at both health centers when stress, worry, emotional or other behavioral habits or concerns are interfering with our patient's daily life or overall health and wellness.

The Behavioral Health Consultant (BHC) works with your Primary Care Provider (PCP) to evaluate the mind-body-behavior connection and provide brief, solution-focused interventions.

Health Education

Health educators provide one-on-one and group education programs. Programs and topics include:

- Chronic Disease Self-Management
- Diabetes Self-Management
- Nutritional Education
- Patient Navigation
- Routine Exercise/Fitness
- Health Literacy

Care Management

- Ladies First (mammography assistance)
- Eyes Forward
- Specialty Referral Services

Patient Portal

As a patient, we encourage you to use the patient portal to communicate with a medical provider or a member of your care team. The patient portal allows you to:

- Securely send a message to your provider
- Request refills and referrals
- Update your information
- View/print your medical records
- And more!
